"Combining the knowledge of his craft with intelligence, willpower, courage and art, a bullfighter uses two cloths (the cape and the muleta) to lead, dominate, pass and kill a charging bull. The pass as it occurs in a bullfight can be regarded as a metaphoric representation of life as it occurs outside the ring. My photographs illustrate how though all passes are the same- the bull must always pass- they are never equal. Like fingerprints and the steps we take in our lives,

there are no two that are identical; the pass is that which forever comes and goes, without ever repeating itself." - Ricardo B. Sanchez
